Katie Hobbs Earns Backing From Arizona List

PHOENIX - Today, the Katie Hobbs campaign is proud to announce that she has received the endorsement of Arizona List, an organization dedicated to electing qualified women leaders who defend the reproductive freedom of every Arizonan.

“Arizona List is proud to endorse Gov. Katie Hobbs because she has a proven record of protecting and expanding reproductive freedom,” said Cathy Nichols, Executive Director of Arizona List. **“While her opponents push bans that roll back reproductive freedom and interfere with personal healthcare decisions, Katie is focused on protecting access to care and ensuring that every Arizonan — not politicians — stays in control of their own healthcare.”**

“I am proud to be endorsed by Arizona List, because they work tirelessly to elect pro-choice women across the state who champion individual liberties, reproductive care, and economic opportunity,” said Katie Hobbs. **“From day one, I’ve worked to protect reproductive freedoms and empower women, signing legislation that repealed Arizona’s 1864 total abortion ban, removing barriers to over-the-counter contraception, helping enshrine the freedom to choose in our state constitution, and making childcare more affordable.”**

Since taking office, Katie Hobbs has made expanding the freedom to choose and opportunities for Arizona families a priority of her administration:

- [Led](#) the successful, bipartisan effort to repeal Arizona's archaic 1864 total abortion ban.
- [Signed](#) an executive order protecting women and doctors from prosecution for seeking and providing reproductive healthcare.
- [Supported](#) Prop 139, enshrining the right to abortion in the Arizona Constitution and protecting reproductive freedom for generations to come.
- [Expanded](#) access to birth control by making it available over the counter, helping more women take control of their reproductive health.
- [Defended](#) the right of Arizonans to build their families, including access to fertility treatments like IVF.
- [Made](#) it easier for families to find affordable childcare for school-age children.
- Delivered [paid parental leave](#), [childcare investments](#), and [healthcare expansions for working families](#), benefitting over one million Arizonans.
